

STONY PLAIN SUN

THURSDAY

STONY PLAIN, ALBERTA, THURSDAY, FEB. 22, 1924

GET READY FOR SPRING!

WHY NOT paint your Wagon, Suggies and Implements? **MARSWELL** Paints and Varnishes will double their life value.

WHY NOT get your Harness ready? A little oil and a few rivets will lengthen the life and save a breakdown when you are busy.

VARNISH and **KALSOMINE** Inside the House will make it look 100 per cent better, and small sweats after being smoked and closed all winter.

C. W. ROSSELL

On the Side.

Hootleggers appear to have their troubles and losses, as well as those engaged in other lines of business. At a recent entertainment in a town not so far from here, one of these gents who, give first aid to the thirty was operating, and picked for his make-a-chick belonging to two young people parked near the hall. The youngsters decided to leave for home early, carrying away the bottle of liquor, which brought the bottle back to town the next day and handed it over to the authorities. Up to the time of writing, there have been no arrests.

Incidentally, police have the story of the hootlegger who advised a young friend of his to "be very careful with whom he associated."

And now the high price of liquor is blamed on the Federal authorities, the tax being \$2.51 for each bottle of Scotch or Irish whis, \$2.45 for each bottle of gin, \$2.50 for brandy, \$1.77 for Hiram Walker's, and \$14.85 on every gallon of alcohol 65 p.c. overproof.

Of course, the Government collects no tax on the "white key" composed chiefly of sheep dip, muscine and coloring.

The local Rummy Club played a session Tuesday in favor of shorter hours.

The hog raisers who haul to Stony are not all pleased with the new rule which bars them from getting Edmonton prices; one farmer declaring "he ain't agin' to raise no more 'tansies."

Birthday Congratulations

To Mr. Henry Kayer, born February 22, 1899.

Valentine Party.

A very successful valentine party was given the evening of Wednesday, February 14, at the home of Mr. and Mrs. C. W. Bell by the Misses Nina and Grace Bell. The rooms were effectively decorated with Valentine symbols. The evening was spent in playing games, after which a delicious refreshment was served.

There was a great box, with Mrs. Bell as Postmistress, which was the center of much amusement.

Among those who participated were: Grace and Nina Bell, Nina and Ella Stach, Beth Goss, Beth Armstrong, Elma Hinkel, Merna Walter Nichols, Huey, George and Conrad Hinkel, George and Herman Wolf, Willie Spady, Alexander Zeiler and others.

Farewell to Mr. C. Pitzer.

A large number of friends gathered at the home, at Ingo, of Mr. and Mrs. Christie Pitzer, on the evening of Tuesday, February 12th, to wish them luck, prosperity, health and a safe journey to their new home in Minneapolis, where Mr. Pitzer has taken up a position in the electrical field.

And presentations of lovely remembrances were given to the parting friends, including a beautiful auto robe given by the ladies.

The evening was spent in a most delightful manner, in such an atmosphere that it will be an outstanding day to both hostess and guests.

LOCAL NEWS

Mr. L. J. Baker is in Calgary this week.

Mr. J. J. Baker has secured a position at Estevic and left for that city yesterday.

Mr. J. J. Baker returned last night from a month's visit in Vernon, B.C.

Mr. J. J. Baker, who has been ill for some time, was taken to the hospital on Friday to an Edmonton hospital for treatment.

Carl Schulz, Vagreville, was in Stony over the week end. Mr. Schulz is a guest with Mrs. Schulz in Vagreville at present.

Mr. G. R. Clarke, the well-known and popular insurance agent for the New York Life, was up from Red Deer over the week end, on a visit to old friends.

Mr. Charles Riss, who returned to his home in Vernon, B.C., about three days ago, is now laid up with an attack of quinsy.

Mr. Paul M. Glaser and wife leave this week for Portland, Oregon, where they intend to reside.

Chao Charlie Wang, inventor of the famous pancake, has moved out to his farm, to near Milk Lake.

Mr. John Katschinsky has taken his moving outfit to the Schwartz farm, east of the Grove.

The sessions of the local school now open at 8 a.m.

Rev. E. Eberhardt held services in the Town Hall Sunday afternoon.

Remember the big concert in Ducholke's Hall on Wednesday, Feb. 27. A good entertainment is promised to all who attend.

As soon as the weather permits, work will be begun on the new Lutheran Church, on the site chosen on Second street. The contract for hauling the gravel has been given out.

The big sale at the Freehold Store is still on, and the place is crowded daily by shoppers eager to secure the bargains which are offered in every department.

Stony's hockey team had a streak of good luck on Saturday last, defeating the Hootleggers in a handy fashion and by a good score, on the local rink. The game on the 17th, against Spruce Grove proved to be an excellent game, Stony winning by four goals to two. The local team goes down to the Grove on the 24th.

Dance in Ducholke's Hall tomorrow (Friday) evening.

Box social and dance, Friday, Feb. 22, at Golden Spike Schoolhouse.

Dance at Milk Lake school house Friday, Feb. 22.

Mirror Of 53 B.C. Found

Relic Unearthed In England Dates From Roman Invasion
Found at Desborough, Northamptonshire, a bronze hand mirror, used probably by a Celtic woman of fashion who lived in the Midlands about the time of Caesar's invasion of Britain (55 B.C.) has been presented to the British Museum. The chasing on the back of the mirror is done by hand and bears curious similarity to eastern workmanship.

COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Musquodobi, N.S., writes:—"I am very thankful for the benefit I have received by using Milburn's Heart and Nerve Pills. When I came home from overseas, in 1918, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night. In fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone. There are lots of returned men who are suffering the same as I did, and I feel sure if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have." Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Airplane Service to India

Great Britain may soon start an airplane service direct to India, acquiring only 100 hours for the trip from London, said Maj.-Gen. Blackner, director of civil aviation of the British air ministry, before leaving for home after a holiday in this country. Gen. Blackner expressed confidence in the success of the British project.

Girl & Gummy Mass Of Beautiful Hair

Dr. Cass "Wonderful" So Improves Lifeless, Neglected Hair

An abundance of luxuriant hair full of gloss, gleams, and life shortly follows a genuine tonic up of neglected scalp with dependable "Dandruffine." Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wavy or falling hair is quickly invigorated, taking on new strength, color and youthful beauty. "Dandruffine" is delicious on the hair; a refreshing, stimulating tonic—neither sticky or greasy! Any drug store.

Only one in ten are said to know how to read a newspaper. The other nine know how to run it.

Where there's a will there's a way to make a way with a will.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and, by regulating the stomach and bowels, aids the assimilation of food, giving natural sleep without opiate. The genuine bears signature of

A Fallen Planet?

Hill in Arizona May Have Been Covered by Gigantic Meteorite
Astronomers have long known that between the orbits of Mars and Jupiter a large number of tiny planetary bodies revolve round the sun. Some of these have a circumference of but a few miles.

In addition, there are countless billions of what might be called meteoric stone hurtling round the sun. These are constantly entering the earth's atmosphere and being burnt up by the friction much more completely than the moth that flies into the candle flame.

Has any one of the small planets ever entered our atmosphere and landed on the earth without being entirely consumed? If it ever did, it was long ago before man appeared upon the earth, for the impact of such an outsider would cause an earthquake indeed.

However, in Arizona there is a curious eminence called Coon Butte which rises about 150 ft. above the plain. At the top is a depression or crater 4,000 ft. wide and about 150 ft. deep. Scattered far and wide around this hill are fragments resembling meteoric iron which contain curiously shaped boulders.

It is suggested that this hill was formed by the impact of a gigantic body from the outside, and mining operations are to be started with a view to discovering whether the theory has any foundation in fact.

End Stomach Misery, Gas Or Indigestion

"Pape's Digestin" is the quickest, safest relief for indigestion, gas, flatulence, heartburn, sourness, or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages of Pape's Digestin.

Will Lead Assistance

Canadian Navy and Air Force Will Aid British Air Racers

Canada will be host to the British airmen who will attempt a round-the-world flight this year, for nearly half their journey.

The Royal Canadian navy and the Canadian air force will second the efforts of the British airmen to circumnavigate the world by air. Between them they will lead a hand from St. John's, Newfoundland, to Yokohama, a distance of 170 degrees longitude, or nearly half-way around the world. The navy will send a boat from Northern British Columbia to assist in the laying of "dumps" along the Aleutians down the Siberian coast to Japan. The air force, through its various branches, will give every sort of assistance throughout the land flight in Canada. Incidentally, this will be the first time that Canada has been crossed by air at one continuous flight.

Will Carry Parachute

Aeroplane Carrying Passengers in France Must Afford This Protection

Since January the first all-French aeroplanes carrying passengers have been obliged to carry parachutes. This fact was made public at a conference of members of the French aerial syndicate.

Regarding the value of the parachute, a conclusive experiment was recently carried out by a French woman, Mlle. Collin. Last month, while travelling in an aeroplane at 30 miles an hour, she dropped off the aeroplane with a parachute, which unfolded itself in a normal manner.

Scientists had stated that such a feat was impossible. Mlle. Collin's exploit has fully proved the utility of parachutes in aeroplane flights, particularly when planes are in danger of crashing down with their passengers.

ST. VITUS DANCE

Shaking Through a Twitching of the Muscles of Face and Limbs

Chorea, or as it is more generally known, St. Vitus dance, is a trouble that usually attacks young children, though older people may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs.

As the disease progresses the twitching takes the form of spasms in which the jerking motions may be confined to the head, or all the limbs may be affected. Frequently the patient is unable to hold anything in the hands or to walk steadily. In severe cases the speech is often affected. The disease is due to debility of the nerves and relief comes through an enriched blood supply, which feeds and strengthens the nerves.

Dr. Williams' Pink Pills have been most successful in reaching this trouble through their specific action on the blood, which it enriches and purifies. The following instance will show what Dr. Williams' Pink Pills can do in this trouble. Mrs. E. E. Makins, Parry Harbor, Ont., says:—"As a young girl I was badly stricken with St. Vitus dance. My parents tried several medicines but without avail. I was steadily growing worse and could scarcely walk without falling. I had to quit school and had no control of my nerves or actions. Finally a neighbor advised the use of Dr. Williams' Pink Pills, and the use of these for a couple of months restored me, and I have had no attack of the trouble since. I have, however, taken the pills at different times since, when I felt out of sorts, and find them all you claim for them if given a fair trial."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ontario.

555 Put to Death

Death sentences carried out in Russia in 1923 numbered 555 as compared with 513 in the previous year, according to the annual report of the supreme court. Forty-three per cent. of the death sentences imposed were commuted to imprisonment, as compared with 31 per cent. in 1922.

Mother! Give Sick Child "California Fig Syrup"

Harmless Laxative for a Sick, Constipated Baby or Child

Constipated, ill, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup." No other laxative regulates it sweeter, the bowels so nicely, the tender little stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

It's painful to see a woman laugh when she doesn't want to but thinks she ought to.

There may be other corn removers, but you will not be completely satisfied until you have used Holway's Corn Remover.

Influence of Tobacco

Every woman desiring a happy married life has realized that tobacco is a helpful influence in the home. Smoking is a very soothing occupation for a man—makes the home a sweet home and prevents family jars.

When a girl says she is never going to get married she means it about as much as the man who says he has more money than he knows what to do with.

Ask for Winard's and take no other.

Lower Taxation

Campaign Progressing

Public Opinion Is Rallying to the Dominion-Wide Demand For Curtailment of Government Expenditures

The movement for lower taxation which originated at Regina early in February has already reached Dominion-wide proportions. As a result of the success which was achieved at Regina, Vancouver has started a similar campaign in British Columbia. Toronto is doing likewise in Ontario, and Montreal is following suit in Quebec. Newspapers have supported the idea all over Canada, public speakers have seized upon it as one of the necessities of the day, and even Ottawa has been awakened up.

Despatches are leaving the capital daily which show that the Dominion Government is beginning to take note of public opinion and promises are being made that expenditures are being reduced and unnecessary or over-manned departments cut down. But promises will not satisfy public opinion and the "Lower Taxation Campaign" will continue to gather strength until all governments live up to their promises and show conclusively that government costs have been cut to the bone.

There is an impression abroad that the National Economy Campaign will adversely affect retail business. Such an impression is incorrect and must be based on inaccurate knowledge. The controlling thought behind the movement to secure a prompt and decisive reduction in government expenditure is summed up in the expression "Lower Taxation means Better Business." Before we can get lower taxation we must convince our governments that public opinion is overwhelmingly opposed to the tremendous increase in the ordinary costs of government which has been going on for the past five years.

How can we secure relief? By making it plain to members of parliament and legislatures and municipal councils that we will back them to the limit in any effort they make to reduce government expenditures. The average man in public life is a shrewd person. He knows that if we want reduced taxation and he does not try to get it for us, that at the next election he will be an "also ran."

Every taxpayer owes it to himself to drive this Lower Taxation Campaign to a successful finish. He can help to do this if he will just sit down and write a short personal letter to every public man serving his district, whether he be a member of parliament, a member of the legislature, or a member of the municipal council. Don't leave it to George—do it yourself.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Bring East and West Closer Together

Sir Charles Fitzpatrick Discusses Need Of Connecting Canadian Interests

Addressing the Rotary Club at Montreal, Sir Charles Fitzpatrick, former chief justice of Canada, and former lieutenant-governor of Quebec, laid stress on the need for improving facilities for the conversion into wealth of the vast products of the prairie provinces and of doing all that was possible to bring Eastern and Western Canada closer together.

He recommended, as policies to this end, the preservation of the St. Lawrence waterways as Canadian; encouragement of the efforts of British Columbia in developing the port of Vancouver as a grain exporting harbor; and the elimination of views in the west of Canada that looked north and south, rather than east and west.

Freedom from Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

An ordinary brick will absorb 14 ounces of water.

Keep Winard's Liniment in the house.

WHEN YOUR THROAT IS SORE

It may be only a slight cold now—just a tickling in the throat.

But little seeds each grow large and dangerous. Often they become chronic, develop catarrh and end in consumption.

Catarrhosis is the remedy. It draws inflammation and soreness out of the throat. Relieves the cough, cuts out the phlegm, makes breathing easy, kills any germs lodged in the mucous lining of the throat or lungs.

By using CATARRHOZONE INHALER now and again you keep the passages free from germs, and thereby prevent coughs and colds. Get the Dollar outfit, it lasts five months; small size, 50c; sold by druggists. Refuse a substitute for Catarrhosis. By mail from The Catarrhosis Co., Montreal.

Eighty Wireless Masts

Wireless Station in Bavaria Makes Use of Mountain Peaks

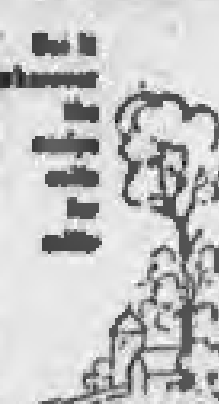

In Upper Bavaria a wireless station is using mountain peaks for masts. The wires are supported by a strong cable and extend from one peak 5,100 feet high, a distance of about a mile and a half across country to the top of a smaller hill of some 2,828 feet elevation. The station is designed to communicate directly with the Far East. Special arrangements were necessary for the fixing of the cable ends and to allow for its stretching. The end of the cable is fastened to a small carriage weighted with stones and running on rails. When the cable is taut by snow or wind the carriage is pulled forward. When the stress ceases it rolls backward on its sloping railroad.

Thick Lustrous Hair Kept So By Cuticura

At night wash scalp of dandruff and itching with Cuticura Ointment. Next morning shampoo with a scrub of Cuticura Soap and hot water. Rinse with tepid water. Keep your scalp clean and healthy and your hair will be luxuriant.

See Dr. Thomas' Electric Oil, Sold throughout the Dominion, Canadian Depot: Toronto, Limited, 244 St. Paul St., W., Montreal. Cuticura Soap always without soap.

Hope Of Western Farmer Is In Diversified Farming And Employment The Year Round

Professor A. Leitch, of the Ontario Agricultural College, Guelph, spoke on "Some Phases of the Economics of Milk Production" at the sessions of dairymen's associations held in Moose Jaw.

The only real progress made in agriculture is made by the individual. Professor Leitch declared and could be accomplished without the aid of legislators. It was difficult to ascertain the average cost of production for he had never found the producing costs of any two farmers to be alike. Attempts to secure the cost of producing milk were made in one of the best dairy districts in Ontario. The highest was \$1.38, the highest \$4.96 per hundred pounds. Conditions were exactly the same, but after four consecutive years the following were the figures, the average being \$2.70, the highest \$4.96.

The cost of producing milk on the same farm varied from 29 cents per hundred to 78 cents per hundred.

Apparently all these men were doing well although there was such a wide variance in the cost. It might be argued that these men did not make any money, but the fact of the matter is that the cost of production made all the difference in the world to the farmer. "A farm," said Mr. Leitch, "is something like a railroad, a large portion of the cost goes on whether the railroad has any business or not."

"In Saskatchewan a man can hardly find occupation for himself for a thousand hours a year growing wheat," stated Mr. Leitch. "If he adds to the farm something that will enable him to work 3,000 hours a year it lowers his overhead and gives him a chance to sell something produced on what would otherwise be idle land. Raising enables a man to lower the cost of everything he grows on the farm."

Professor Leitch explained in detail the decrease in the cost of producing all the grain and forage crops on the farm by dividing the land with the dairy cow. Farmers growing only wheat can estimate the cost of the crop per bushel, but in diversified farming it is absolutely impossible to determine the cost of any one product as it is a joint cost.

They Like Western Coal

Says Alberta Coal Gaining Ground in Eastern Market

Confidence in Sir Henry Thornton, president of the Canadian National Railways, to "do the fair thing by the west" was expressed by A. N. Walker, of the Alberta Distributors, Ltd., who passed through Winnipeg on his way back to Drumheller. He believed that freight rates would be brought down as soon as possible. That dealers in Middle and Northern Ontario were buying Alberta bituminous coal in preference to Pennsylvania hard at the same price, was Mr. Walker's statement.

"We are selling Drumheller coal at \$18.75 in Sudbury and other nearby points and it is being bought in preference to the American coal at the same price," Mr. Walker reported. "Sixty per cent. of the consumption of Sudbury is western, and this percentage is increasing all the time."—Free Press.

New Building Material

Waste Paper Used in Building Homes in Sweden

A new building material made from waste paper and designed for ceilings and wall linings has been perfected by a Swedish engineer, and production on a large scale soon will be undertaken.

The raw materials are ordinary waste paper such as accumulates in cities, clay and asphaltum, the cheapness of which warrants an inexpensive finished product. The covering is said to be fireproof and durable; can be applied by unskilled labor, will take paper, paint or stain, and can even be polished. It is a good non-conductor, and does not respond to changes in temperature.

Makes in the most thickly populated island in the world.

Seed Growing in British Columbia

Industry Has Shown Development in Past Few Years

The seed growing industry of British Columbia has developed considerably in the past few years. The most of this seed is grown in the interior part of the province and with the climatic conditions such as they have there is little reason why a greater quantity should not be grown. A. McMeas, seed production specialist, Vancouver, B.C., has divided the province into the following four districts, with suitable crops for each:

District No. 1.—Lower Fraser and lower half of Vancouver Island: Pole and broad beans, beet, cabbage, celery, kale, parsley, peas, spinach, mangel and swede.

District No. 2.—Lower interior, embracing the dry belt east of the Cascade Mountains to and including the Okanagan: Dwarf beans, beet, carrot, lettuce, vicia-seeds, onion, parsnip, radish, sweet corn, tomato and manget.

District No. 3.—Central interior of British Columbia: Rutabaga or swede turnip, parsnip and peas.

District No. 4.—Kootenay, embracing that district east of the Okanagan and south of the main line of the Canadian Pacific Railway: Dwarf beans, beet, carrot, onion, parsnip and mangel.

424,000 Miles

Imagine, fifty-three worlds the size of our own planet strung as a necklace. Enough lead-covered telephone cable was produced during the month of November at the Western Electric Works at Chicago to go through fifty-three globes the size of our own. This gives us some idea of the magnitude of the electrical business.

Imports and Exports of Settlers Effects
Settlers' effects, valued at \$4,091,107, were brought into Canada last year, a decrease of two millions from 1921 and about the same as 1922. Exports of settlers' effects last year is valued by the Dominion Bureau of Statistics at \$10,598,157, marking a steady increase for the last four years.

Land Colonization Is Most Important Business Canada Has In Hand At Present Time

Why Poultry Pays

Big Increase in Dressed Poultry Shipments From Manitoba Town

That Manitoba farmers are getting away from disastrous wheat raising and settling down to farming is again indicated by the fact that a co-operative organization, formed in 1922, with Hartney as headquarters, shipped out five cars of dressed poultry from nine shipping points in 1922, and 20 cars from 25 shipping points in 1923. The birds were packed in parcelment-lined boxes, under the supervision of experts employed by the Dominion Department of Agriculture. The cost of handling was one and a half cents per pound in 1922, and was somewhat less last season. The prices received for last season were 26 cents for No. 1 (turkey), 18 cents for No. 2 and 11 cents for No. 3. Chickens realized 19 cents for No. 1 and 15 cents for No. 2, while geese fetched 11 cents.

Skin Disease in Livestock

Farmer, Middlesex Co.—Que.—One of my animals seems to have some kind of skin disease. What had I better do?

Ans.—Report at once to the nearest veterinary inspector. You might also write to the Veterinary Inspector-General, Ottawa, for a list of disinfectants, with which is given full instructions as to preparation and use. A recently issued bulletin by Dr. George Hilton, Chief Veterinary Inspector, which can be had free from the Publications Branch, Department of Agriculture, Ottawa, will also furnish you with necessary information.

It has been proven possible for a patient's heart beats to be transmitted by radio to a physician many miles away.

"Land colonization is the big business of Canada," declared C. A. Magrath, chairman of the International Waterways Commission, at the annual meeting of the Association of Dominion Land Surveyors held at Ottawa, when he was asked to participate in the discussion on the report of the land settlement committee of the association. He said he had reached a point where he was critical of Canada's colonization problems.

"I do not believe we are taking hold and pulling people down to the land," said Mr. Magrath, "with that courage we would apply to big business, and I regard colonization as the biggest business of this country." He was not prepared to criticize governments, but he thought there were too many street corner critics instead of the big men of the country taking hold of the problem.

"When it comes to national problems I see very little evidence of team play from leading men in this country," said Mr. Magrath. He heard lots of talk about colonization but frankly, much of it was not worth listening to.

"We all seem so busy that we don't seem to get down to what is the policy of colonization for this country."

Privately-owned unoccupied lands near the railways constituted one of the problems of land settlement, remarked Col. J. S. Dennis of the Canadian Pacific Railway. There were 62,000,000 acres of privately-owned unoccupied lands within 15 miles of railways in the west, and at these 25,000,000 acres were suitable for immediate settlement. He urged more co-operation between the railways and the railway companies' land settlement activities, and expressed surprise at the extent of land classification which had been done as revealed in the report of the committee.

Primo Green, of the Canadian National Railways, joined with Col. Dennis in regretting that more use was not made of information of the government departments.

In his presidential address Major H. Douglas Nelles remarked that probably the general public was unaware that Canadian surveyors have mapped out between 44,000 and 50,000 square miles of Canadian territory. He claimed that in this respect Canada had surveyed more territory and developed the method to a higher state of perfection than any other country in the world. In the actual work of land subdivision Canada had been able to keep up with the settlements as required.

Though the conditions of agriculture are not everything that might be desired, there is reasonable prospect of a revival in the near future that should reflect upon the entire commerce of this country and work to the benefit, indirectly, of the business and professional men.

This was the message of Hon. Charles Stewart, minister of the interior. Mr. Stewart spoke of the tendency on the part of many people to leave it to the government and leaders of the country to solve the problems, adding that some of the most valuable suggestions came to the government from unoccupied quarters. He urged that technically trained men should offer suggestions when possible to the government in matters of technical research in this country.

Improve Elements of Citizenship

True Democrat Must Make Contribution to the Public Weal

An appeal for an attitude of noblesse oblige toward this country and the Empire was made by A. M. Grier, K.C., of Toronto, in an address before the Canadian Club. As, under the federal system, nobility carried its obligation, as in the modern state, the true democrat must make a contribution in some manner to the public weal.

The spirit of noblesse oblige should not be reserved for the affairs of the nation, but should extend into all the relationships of life, and particularly to the respect of property, said the speaker. More reflection upon the pioneer efforts of those who have gone before would tend to improve the elements of citizenship and to make people worthy of the tremendous potential wealth of this country.

Winter Sports at the Winnipeg Carnival

When King Winter holds sway at Winnipeg the red-blooded men and women of the prairie metropolis find other things to do besides all huddled over stoves and heater registers. They recognize that winter frost and snow makes possible delightful exercise with skis, snowshoes and skates, not to forget the ancient and honorable game they play "of stone and bones."

Above are scenes taken at the last winter carnival which was held at River Park, Winnipeg. Special bus arrangements for carnival visitors have been made by the Canadian National Railways.

CHAPTER TWENTY-THREE

Murray insisted that I should not recall my promise to visit Maudie for Thanksgiving.

"It will cost very little," he said, "and you have not had a day off since I came home—it will do you a world of good."

"Neither have you had a holiday," I pointed out.

Whereupon Murray declared that every day was a holiday to him and that he could not go to Winnipeg, if he were provided with a private car for the journey and a suite at the Fort Garry. I hope he may be forgiven!

It ended, as it usually does, in Murray having his own way, but I stipulated that in return he should accept Jack Mowbray's invitation to go moose hunting with him when the season opened.

I would not admit it, but I agreed with Murray that the change would do me good—and perhaps make me a better companion for the long winter that I had come to dread. I hate to confess it, even now when it is a thing of the past, but through the lovely fall days I carried a heavy heart. I suppose I was, in army parlance, fed up. My old homesickness had returned and between it and the way in which my conscience kept pointing out to me that I was a failure as a wife I was wretched indeed—underneath, that is.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of
Lydia E. Pinkham's Veget-
able Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well, and was nervous at the least noise. I kept house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken two bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES E. MACPHERSON, 299 Greenway St., Brantford, Ont.

If you are suffering from a displacement, irregularities, headache, or any other form of female weakness, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Test-Book upon "Abnormalities of Women."

W. N. U. 1512

I flatter myself that the surface was fairly serene.

Nothing hurt so much as the knowledge that I was not fully in accord with Murray. I did like Herrington's Hope, and so long as I could look forward to something different I really enjoyed our daily life. But, to make a clean breast of it, I did not feel that I wanted to stay there all my life, especially if crop failures were to be common. Murray, on the other hand, had quite obviously found his vocation, a vocation that he would have given up without complaint at my request, but how could I ask him to go back to the city when he was so well and so much his old self that our bad luck had after the first shock stimulated rather than depressed him? Always at the bottom of my heart, side by side with the faint but insistent longing for my old environment, lay the memory of those terrible months when I did not know whether Murray would ever be well again. And though he is so strong now I do not think I shall ever lose the scars left by the old fear.

All this is very mixed and inconsistent, I know. It does not seem reasonable that I should have known definitely that I would never ask Murray to leave the farm, that I should have liked the life there, have grown so fond of our neighbors, and still have known the craving for the city, but such was the case. I scolded myself for a whole week before I went to Maudie's. "If you had to make a decision, Margaret Anne, you know what you would do. Then why make such a fuss?" I would say to myself. But self-administered scoldings are not nearly so effective, I have learned, as treatment by someone else, and I can see now that Murray's prescription was what saved me—saved not my life but that far more valuable thing, my self-respect.

The children were greatly excited by the prospect of my absence, and my heart almost failed me at the thought of leaving them. I had never been away from them in their lives except when I was with Mrs. Fenwick, and then I saw them often. A week seemed, in prospect, an eternity.

My preparations were soon made, and more than once I felt thankful that I had always been the tailor-made sort of person, my simple and conservatively-cut clothes did not show their age and I had no fear that Maudie would need to feel apologetic on my account. Murray, man-like, felt badly that I could not have a complete new outfit, but when he saw the transformation Owen had worked on my old black lace dress he said so many nice things that I almost wrote to Maudie that I could not come—my improvement dated from that moment, I think!

As our train pulled into the Union Station the morning of my arrival in Winnipeg it seemed to me that only half of me answered Maudie's affectionate greeting. The other half was at home with Murray and the twins. To one half the sights and sounds of the city were so familiar as if I had missed them but a day instead of more than a year, to the other half was confusion. I was really ashamed of myself, here I was where I had wished to be, and now I was wishing to be somewhere else.

"You are as unreasonable as Owen," I told myself severely. "I give you just one week to pull yourself together."

"Used to be back?" asked Maudie as we turned down Broadway.

"Rather!" I replied valiantly.

"If only Murray and the children were here too," Maudie teased and my spirits rose unaccountably. Perhaps I wasn't a case for the Psychopathic Ward after all, I thought.

"My feelings are rather mixed," I admitted, just a little sorry to see that Maudie was able to understand me, for it showed how far she had come from the careless girl I used to know.

"Don't worry about that," was the

comforting reply. "You have carried a heavy load for the last few years, Margaret Anne, and it is no wonder that you are a bit unstrung. We are going to have one thoroughly giddy week and you'll go back to Murray completely renovated, just see if you don't. And now how are the kiddies, my best-beloved Nicolas in particular? I do wish you could have brought them with you."

"I am not going to the office except in the mornings while you are here," continued Maudie after I had delivered all sorts of messages from the children and told of their latest escapades and clevernesses. "Every afternoon we are going somewhere or having company, and every evening too. You'll never get to bed early, so you must not think of getting up in the morning before ten o'clock—oh, don't look so scandalized. Mother and I have it all planned. This is a holiday, Mrs. Aylwin, don't forget that."

It was a holiday, there was no doubt about that. Mr. and Mrs. Jones webbed me as if I had been a long lost daughter and presented me, figuratively speaking, with the house and all it contained. The first night B.F. came over for dinner and I was so glad to see the old dear that I almost wept over him. He was a trifle plumper and a trifle more old maidish than when I went away, but as kind as ever, and as glad, bless his good heart, to hear how greatly Murray had improved.

That was the one night during my visit that Maudie and I were in bed before twelve. And at that we talked half the night, for I shared Maudie's room as I used to do when we were allowed to spend the night together as children.

Maudie had warned me on our way home from the station that all the time I might claim for myself was an hour a day in which to write to my family. She would see to the filling of the rest. And, like the little red hen, she did.

The first afternoon we went out to Deer Lodge to see Leslie Ormond, then came back and had a cup of tea with the Robertsons. The next day, Sunday, we went to church in the morning, and in the afternoon, while Maudie went to the hospital, B.F. took Teddy and me down to Kildonan Cemetery, where Mother and Father were buried. Jessie Middleton and Kathleen Manners, who had come home from overseas after I left the city, came for dinner and instead of going to church again in the evening they

BLUE RIBBON TEA

By an overwhelming majority
the people of Western Can-
ada have decided that Blue
Ribbon "Mountain Grown"
Tea is the best. Ask for it!

and Maudie and I sat in front of the fire and talked and talked and talked. Monday, Thanksgiving Day, we went to church in the morning, had the family dinner at noon, ran over to see the Robertsons again during the afternoon and then went to the Walker in the evening.

There is a fair sample of the way in which my time was spent. Teas and luncheons and dinners kept me as busy as a debutante, busier socially than I had ever been in my young days. And I enjoyed it all. I enjoyed too the morning I spent with Maudie, the visit to our old office, and the almost daily "dropping in" for a chat with the Robertsons.

There were many changes. The Robertsons were falling very quickly. Granny especially. They were living in their old quiet way, a widowed daughter having come to keep house for them, and were serene and benediction in one to this scurrying, worrying age. Like tired, happy children they were ready to rest, caring little how or when it came so long as they might be together. I found them living much in the past, Granny, I know, confessed Nicolas and me, and she often spoke to me as if I were Mother.

Even the young people had changed. Reg Jones had grown into a steady, rather quiet young man, hobbling back and forth to the Medical College on an artificial leg that could never

be made to sit quite satisfactorily. In the office I found the older men aged more than time alone would account for, and many of the girls were married, their places having been taken in most cases by men who I did not know. And each person I met seemed to carry a burden—even the Middleton girls and Kathleen Manners were restless and dissatisfied, hating private nursing, and full of wild plans to go to China or Australia or some other green field where, they heard, it wasn't so deadly dull as in Canada.

I was learning my lesson and I felt that the days could not pass quickly enough to take me back to Herrington's Hope so that I might tell Murray how much I had to be thankful for. I thought I knew what hardship was, but even the poorest people I knew in the country had food and shelter, plain though both might be. And in Winnipeg men walked the streets looking for work when there was no work to be found, and there was a scarcely-hidden undercurrent of fear and distrust very different from anything I had ever seen before, the best possible material for agitators to work upon.

(To be continued)

The difference between a planet and a star is this: A star shines by its own light, a planet by light reflected by another body.

The Healthful Walk

WHAT is more pleasant and exhilarating than a brisk walk in the crisp, fresh air.

You breathe deeply. The blood is purified. The circulation is quickened. The bloom comes to the cheeks and you feel fine.

The vital organs are put in fine condition by walking and many ailments can be relieved mainly because the liver action is aroused.

And yet we do not walk. It is so much easier to ride in an auto or street car that walking is becoming a lost art.

Since we do not take the necessary exercise to keep the liver active and the bowels regular it becomes necessary to resort to other means.

The most popular family regulator is Dr. Chase's Kidney-Liver Pills, for by use of this medicine once or twice a week

you can be sure of the healthful action of liver, kidneys and bowels.

Our greatest danger in this age of sedentary habits is from overeating and neglecting to pay attention to the regularity of these eliminating organs.

Most of our ills come from this condition. For proof of this statement you need only enquire at the hospitals where there is always a rush of appendicitis and liver and kidney cases after the holiday season and during the winter months when we use so much artificial food and live cooped up in houses from which fresh air is carefully excluded.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 50 cents a box of 50 pills, instead of 50 cents a box for 25 pills. Edmaness, Bates & Co., Ltd., Toronto.

ASSETS OF THE HOME BANK WILL NOT MEET LOSSES

Toronto.—Litigation over the failure of the Home Bank is steadily piling up at Osgoode Hall. The Home Bank Association of Saskatchewan, made up of 150 Home Bank shareholders, have banded themselves together, and will jointly resist the demands of the liquidators for a payment of the double liability. The association has retained a Toronto law firm to fight its claims in the court. On behalf of the 150 residents of Saskatchewan, a statement of defence was filed at Osgoode Hall.

That the assets of the Home Bank of Canada, including the amounts recoverable under the double liability of the shareholders, will fall very far short of the amount necessary to meet the liabilities of the bank, is the opinion of G. T. Clarkson, liquidator, given in an affidavit filed by A. W. Ballantyne, K.C., on a motion before Chas. Garrow, K.C., master of the Supreme Court, in an application for a call upon the shareholders for the amount entered opposite their names on the list of contributors.

The purpose of the affidavit is to show the necessity for resorting to the double liability of the shareholders to meet the losses. Losses which it is expected will be incurred in realizing upon loans made by the bank are placed at \$4,480,000, which will more than wipe out the capital and reserves of \$2,595,734, and will, it is expected, leave a deficit of not less than \$1,884,266. In addition, losses which may reach \$200,000 are expected from minor agricultural and commercial loans made at branches.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds
Toothache
Neuritis
Neuralgia

Headache
Lumbago
Rheumatism
Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Drug-gists also sell bottles of 24 and 100. Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monacopoland of Salzkitten. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Railway Accidents

Ottawa.—In 235 accidents reported on Canadian railways during the month of January, 15 persons were killed and 323 persons injured. Two of the persons killed were passengers, and seven were employees. Six of the fatalities during the month occurred at railway crossings. Out of 19 crossing accidents, automobiles were involved fourteen times, resulting in four persons being killed and 21 injured.

Joints Ache?

Minard's will ease the pain and stiffness. The old reliable remedy.

W. M. U. 1511

Mobilization Plans Prepared by France

Paris.—The government bill, dealing with measures for "national mobilization" in case of war, was distributed to members of the House of Deputies. Its leading principle is that every French citizen in time of war must participate in the defense of the country and the maintenance of its material and moral life. Among the measures to be adopted, will be a modification of legislation during a time of war, the utilization of all intellectual forces in the interest of national defense and measures necessary to maintain the morale of the people.

The Western Grain Port

Says 60 Per Cent of Crop Will Go West in Five Years

Montreal.—"In five years 50 per cent of the grain grown on the prairie provinces will be shipped through the ports of Vancouver and Prince Rupert," stated F. G. Dawson, of Prince Rupert, B.C.

Mr. Dawson is one of the directors of the Canadian National Railways, and is in Montreal on business.

He pointed out that the present freight rates from certain portions of the prairie provinces to the Pacific coast are equal to the rates to the head of the Great Lakes.

At the same time, navigation on the Great Lakes is closed from December 1 to April 1, or four months, where as the Pacific coast ports are open the year round. This closing of the Great Lakes ports, Mr. Dawson stated, causes a great deal of the movement of grain, and to meet this rush the railway companies have to maintain a large equipment which is more or less idle during the remainder of the year. At the same time, congestion frequently results at the head of the lakes, and, as has been the case this winter, the declaration of an embargo has been necessary to meet the conditions which are bound to come.

Tariff Agreement With Australia

Series of Conferences Between Representatives of Two Countries Are Concluded

Ottawa.—A series of conferences begun in Australia two years ago, aiming at a reciprocal tariff agreement between Canada and Australia, are concluded. The extent to which each government is willing to make concessions in tariff has been made clear and each delegation will submit the results of the conferences to its government for approval. The customary secrecy regarding tariff matters has been preserved and nothing will be known as to the nature of the proposals until they are published simultaneously in both countries.

The Australian delegates proper are Senator Wilson, minister of health for the Australian commonwealth, and Major R. McK. Oakley, controller-general of customs for Australia.

Want An Annapolis

Edmonton.—Better provision for the payment of succession duties without impairing the value of estates, is desired by the Life Underwriters' Association of Alberta, a delegation from which waited upon the government with a suggested amendment to the present act. The insurance men's suggestion is that life policies earmarked for the purpose of paying death dues shall not be charged with duty.

Save Life To Aid Crew

Washington.—Captain Herbert G. Sparrow, of the Cruiser Tacoma, wrecked at Vera Cruz, lost his life while endeavoring to aid men of his crew who had been imperiled with him, in the destruction of the ship's radio house in the great storm that made a complete wreck of the cruiser on January 15. It was stated in a memorandum received at the navy department.

Prepare For World Flight

Victoria, B.C.—In preparation for the round-the-world flight by British aviators, backed by the British Government, the Canadian naval patrol ship, Thetis, now with established agents for the store along the Pacific coast of Canada and across the Pacific to the Alaskan islands.

Probe Oil Scandal

President Coolidge Says There Will Be No Fear or Favor Shown

New York.—The United States has the definite promise of President Coolidge that there will be no immediate, adequate and unshrinking prosecution, criminal and civil, in the oil land-leasing disclosures. Speaking here at the National Republican Club's Lincoln anniversary dinner, during his first visit to New York city since he entered the White House, Mr. Coolidge declared he was "intent on the enforcement of our laws without fear or favor, no matter who is hurt or what the consequences."

"In this effort there will be no politics, no partisanship," he asserted, referring to the contemplated oil lease prosecution. "It will be speedy, it will be just. I am a Republican, but I cannot on that account shield anyone because he is a Republican, and I cannot prosecute anyone because he is a Democrat."

Norway Recognizes Russia

Moscow.—Norway has given the Russian Soviet Government recognition de jure, the Foreign Office was informed in a telegram from Madame Alexandra Kollantai, Soviet representative in Norway.

Women's Ailments Caused by Neglect

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits

Women are on the whole more sickly than men. One reason is that their system is more complicated; another and more important reason is, they put off measures of relief too long. At the beginning, constipation is the cause of nine-tenths of women's ailments. The blood becomes weakened and polluted—the nerves suffer, and a run-down condition takes root.

Because of their mildness of action as a system regulator, no medicine for women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills, and the result is as you would expect—pain in the back and side, shortness of breath, and bad color disappear—the functions of the body, then operate naturally, congestion and pain are prevented, and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood purifier, the finest complexion renewer, the most certain regulating medicine known. Sold by all druggists and storekeepers, 25c per box, five for \$1.00 postpaid, from The Catarthosene Co., Montreal.

Radio For Police

Toronto.—Chief of Police Dickson will ask the Board of Police Commissioners to pass a sum for the purchase of radio equipment, he announced.

Predict General Election For Britain In June

London.—A general election in May or June is possible, according to the Yorkshire Post. The Post is strongly Conservative in its politics, but it is not in the habit of making reckless partisan assertions. The Yorkshire Post says there is a feeling in the lobby of the House of Commons, even among the members of the government, that they must be ready for an election in May or June. On the other hand, the paper continues, the demeanor of the ministers in the House of Commons gave the impression that the administration was determined to sit tight for a year or two.

Dietary in Hebrides

London.—The Lord Mayor of London has issued an appeal on behalf of the population of the Hebrides and other Scottish islands, many of whom have been reduced to starvation by the failure of the harvest. It is declared that the population of the Hebrides have for some time been suffering a distress unparalleled for severity in the memory of the present generation.

Still Doing Great Work For Women

What Mrs. Vaillancourt Says of Dodd's Kidney Pills

She had suffered from Rheumatism, Sciatica, Gravel and Backache, and found relief in Dodd's Kidney Pills. Bill Siding, Ont.—(Special).—One more tribute to the great work Dodd's Kidney Pills are doing for the women of Canada comes from Mrs. Frank Vaillancourt, well known and highly respected here.

"I have suffered for 14 years from a complication of kidney troubles and have never found any remedy that has done me as much good as your Dodd's Kidney Pills have. There was a friend of mine who was feeling very poorly and I told her of the good Dodd's Kidney Pills did for me. She used three boxes and is feeling fine now."

Dodd's Kidney Pills are a kidney remedy. They relieve the work of the heart, by putting the kidneys in shape to strain all the impurities out of the blood. Pure blood carried to all parts of the body means new health all over the body.

Sad Fate Of Mountain Climbers

Find Bodies of Two Young Men Killed By Falling

Vancouver.—The bodies of Arthur Willis, 21, companion of David Spencer, whose dead body was found in a hole on Grouse Mountain, near here, was found by searchers in a gully 200 feet away from where Spencer's body was found. His leg had been broken and head crushed, presumably by a fall of several hundred feet into the gully. Evidently he had gone to aid his friend, Spencer, when the latter had fallen 300 feet into the hole in which his body was found.

Stop Work On Tomb

Luxor.—Owing to what he characterizes as the "disrespect" of the Egyptian public works department, Howard Carter, head of the excavation work, closed Tutankhamen's tomb and abandoned operations. It is understood the crisis was precipitated by the refusal of the Egyptian Government to permit the wires of the excavators to vibrate the tomb.

Toronto's Population

Toronto.—Greater Toronto has a population of 766,446, Toronto proper has a population of 484,225, and Toronto suburbs have a population of 74,574, according to this year's new city directory.

NEW POLICIES OF BRITISH PREMIER ARE CRITICIZED

London.—Premier MacDonald's remedies for dealing with the crisis in Europe and the problems of his own country were searchingly analysed in the House of Commons by former Premier Baldwin and Asquith and other members of the opposition. Most of the criticism was directed against his policy in recognizing Russia before the Soviet gave any pledges concerning fulfillment of obligations to the British Government, corporations or individuals.

Mr. Baldwin declared that Italy had not accorded recognition to Russia until she had secured valuable concessions and privileges from Moscow.

The prime minister was also taken to task for failure to present details of the proposed solutions of such vital questions as unemployment, public economy, the safeguarding of industries and housing, as well as strengthening the army, navy and air forces. His handling of the Poplar issue, whereby the minister of health gave latitude in the distribution of unemployment relief, was vigorously assailed by Mr. Asquith, who, however, in other respects exhibited an extremely lenient, almost paternal, attitude towards the new premier.

Mr. Baldwin, who opposed the attack on his successor in office, said that Premier MacDonald's policy of "sweet reasonableness" in dealing with Europe might be carried to excess without reaping any of the rewards which were its due. He criticized Mr. MacDonald for failing to give the late government credit in concluding the liquor treaty with the United States and the Tanager agreement. The present cabinet, he said, was pursuing the policy in Europe which had been followed by the former government for 13 months. He declared that Mr. MacDonald would find his policy towards Russia impossible of fulfillment, arguing that Germany, which knew Russia better than any other country, had been unable to achieve any substantial business success there, although it had been granted the widest concessions.

Commences Farm Work

Warm Weather in Alberta Enables Farmer to Start Ploughing

Calgary.—Alberta, the land of snow and ice, of the day and Arctic cold, is in danger of losing its reputation this year. A few days ago press dispatches carried the information that work on the land was progressing at Tabor in this province.

W. C. Spore, who has been farming in the vicinity of Calgary for the last thirteen years, started team working on his land during fall plowing. "Of course, this work could be done on stubble land but fall plowing works good," declared Mr. Spore, whose farm is located near Chestermore Lake.

Will Require License

Winnipeg.—Transient traders in daily and weekly newspapers, signs and trade publications, magazines published in Canada or books approved by a public library board, will be required to take out a license costing 5c if they desire to continue doing business in Manitoba, according to an amendment adopted by the law amendments committee of the legislature.

LUNCH COUNTER CARS ON NATIONAL

LUNCH counter cars which will care for the needs of passengers in the colonist, first class and tourist cars of the main line trains, if they desire to patronize them, are to be operated by the Canadian National Railways for the convenience of the travelling public, and particularly of immigrants arriving in Canada. As an experiment, lunch counter cars have been placed in service between Winnipeg and Toronto. While these trains carry dining cars and while the Canadian National Railways also have lunch counters and restaurants at all divisional points, it is considered that the lunch counter car will be a great benefit to women travelling with children and to others who may be physically unfit or unable to leave the train at stations because of severe weather, or for other reasons.

The lunch counter has been fitted up at one end of a steel colonist car, where the best grade of tea and coffee freshly made will be served. Light meals comprising cereals, sandwiches, pies, preserved fruits and other canned goods will be available at Canadian National standard lunch counter prices. A competent and courteous attendant will be in charge of each lunch counter and service may be secured at any time during the day.

The suggestion of the lunch counter car was made by Mr. Walter Pratt, General Manager of Dining, Sleeping and Parlor Cars and of Hotels, who has been anxious to provide this facility to further improve travelling conditions and add to the comforts of passengers on the Canadian National Railways.

IN THE LAND OF THE LOBSTICK

ALL the old timers in and about The Pas, Manitoba, are "hot up" over the chance of their favorites in the annual dog derby classic, which this year is to be run on March 11; they've talked dogs and dog teams until they are almost black in the face and they have compared times as their favorites tried out the course in various directions.

And second in importance to the winner of the 300-mile grind, is the winner of the Carnival Queen contest for which many Manitoba

maiden are working hard, in order that they may earn the honor of being queen of the unique winter event.

Photograph shows three of the strong contenders for this year's honors. The upper team is that of C. E. Morgan, which captured the honors last year and is again very much in the running; centre photograph is that of "Shorty" Russell and his racers which were second in The Pas classic last year and striving for first place in 1924; the lower photograph is that of Earl

Dryden's racing team which will defend the honors of Manitoba at the Quebec races and then return in time for the annual grind in the north. Lower centre, the Grant Rice-Walter Goyne trophy, coveted by all northern dog mushers; left, the Carnival Queen superintendent's start of the classic; right, Her Majesty and Court go a'riding. Special fare arrangements have been made by the Canadian National Railways for the benefit of those from outside points attending the Winter Carnival.

CO-OPERATIVE MARKETING

THROUGH a co-operative arrangement with the E. H. Heath Co. Limited, publishers of the Canadian Power Farmer, we are enabled to offer that farm magazine and this weekly for one whole year for the price of this weekly alone. This applies to either new or renewal subscribers.

The editorial programme of the Canadian Power Farmer for 1924 includes:

1. A series of articles on the place and the proper use of the tractor.
2. Tree planting and maintenance, or how to multiply the trees and fruit in.
3. What is the cost of raising a head of cattle?—as told by actual farmers.
4. Is the tractor a necessary part of a farmer's outfit?—actual farm experiments that answer the question.
5. Co-operative marketing—can it be successfully applied to a grain-raising country?
6. Proposed ideas for the improvement of farming conditions in Western Canada.
7. How much equipment is the farmer justified in buying for winter, but and service farm?—as told by actual farmers.

In addition to the above, each issue will contain five, reasonable, general articles, short stories, household and boys' and girls' departments etc.

As this is a special offer, we would advise that you take advantage of it as soon as possible.

Send all subscriptions to this paper.

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.

PRODUCT OF CANADA

WORLD HAPPENINGS BRIEFLY TOLD

On the occasion of the anniversary of his coronation the Pope has donated 500,000 lire to Austrian relief, according to the newspaper Epoca.

The Polish diet has passed a bill providing two years' military service which is reduced to 18 months for graduates of high schools and university men.

Lieut. Antonio Yilder and Sergt. Ben Knoderis, of the Cuban aviation corps, fell about 1,600 feet with their aeroplane at Camp Columbia, and escaped death.

The difficulty of obtaining an adequate supply of officers for the British army is declared increasing. Reduction of pay to be effected this year and reaction after the war are two reasons assigned for the situation.

The British Postmaster-General, Vernon Hartshorn, has appointed a committee to consider and advise him without delay on the policy to be adopted with regard to an empire wireless service.

Reports that a rupture has occurred or is imminent, between the former Emperor Wilhelm and the Princess Hermine, his wife, has no foundation, according to the best information from Doorn.

MRS. FRANCIS STONE

Your Good Health and Long Life Depend on Your Kidneys

FOLLOW THIS ADVICE!

Beaufort, Ont.—"I take the greatest of pleasure in recommending Dr. Pierce's Anuric (kidney) Tablets to all sufferers of kidney and bladder ailments. Four years ago I first learned the value of the Anuric Tablets. I had suffered severely with backaches and my bladder was giving me considerable inconvenience, when I was advised to try Dr. Pierce's Anuric Tablets, obtaining almost immediate relief. Relatives have taken the Anuric (anti-uric-acid) Tablets on my advice and every one of them is enthusiastic in praising Anuric for the relief of backaches and kidney and bladder weakness."—Mrs. Francis Stone, 65 Grey Street.

Don't wait for serious kidney ailment to set in. Help your weakened kidneys with Dr. Pierce's Anuric. At all drug stores, or send 10 cents to Doctor Pierce's Laboratory in Bridgeburg, Ont., for trial package. Write Dr. Pierce, President of the Invalide Hotel, Buffalo, N. Y., for free medical advice.

SUNDAY SCHOOL LESSON

FEBRUARY 24

THE PERIOD OF THE JUDGES

Golden Text.—I will heal their backsliding, I will love them freely. Hosea 14:4.

Lesson.—Judges, Chapter 2 to 16. Devotional Reading.—Psalm 52:1-7.

The Text Explained and Illumined
I. A Summary of the Times of the Judges, Judges 2:16-18. The people of Israel served Jehovah all the days of Joshua, but when he died, they did that which was evil in the sight of Jehovah and served the Baalim; they forsook Jehovah and followed other gods, the gods of the people round about them. God's anger was kindled against them, and he delivered them into the hands of their enemies. They were distressed and groaned under their affliction, and then Jehovah in his pity raised them up a judge and saved them from their enemies. But when the judge died the people returned to their idolatry. Verse 17, which tells how the people in the times of the judges worshipped other gods, is an interruption to the thought of verses 16 and 18, and may have been added by some later editor.

II. The Reduction of Gideon's Army, 7:3-8. See The Historical Background.

The army of the Israelites was large, and if they succeeded in conquering their enemy, the Midianites, they might brag of having done this themselves, whereas they were fighting under God's banner and to Him would belong the victory.

"Who won the war?" said a man of God.

To a soldier from overseas:

"Was it France or England or Italy Or America? Tell me, please, Who put the Kaiser to flight, do you think."

And answered the German guns? Was it Foch or Haig or Pershing brave Who beat the cruel Hun?"

The soldier looked in the good man's face, And his eyes with a strange light gleamed:

The moment came and went again While his mind with strange thoughts teemed. Then, proudly lifting his manly head, He answered the good man thus:

"The glory belongs to God," he said, "And not to any of us."

—Nellie D. Morgan

Sour Stomach Risings Quickly Relieved

The wonderful comfort and relief you get from even twenty drops of Nerviline will surprise you. Take it in sweetened water; it's not unpleasant. Almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and at the same time relieves that distressed feeling in the stomach. When colic or cramps strike you at night, when nausea or upset stomach overcome you, then it is that you'll find Nerviline a sure relief. For general use in the family, for emergent ill, always keep Nerviline handy on the shelf. Get a 35c bottle to-day.

Will Supply Farm Help

Farmers Can Secure Application Forms From Nearest C.P.R. Agent

Bringing of farm help to Western Canada from Europe, inaugurated under a special scheme by the Canadian Pacific Railway last year, will be continued this year, it is announced by officials of the company.

During 1922 about 2,000 men and women for farm help were brought west, but many more than this number are expected this season. The first of these will arrive about March 31st, coming from Great Britain, Denmark, Switzerland and other parts of Europe.

Application forms are being supplied to all farmers who need help by the nearest C.P.R. agent or the Colonization Department at Calgary, Edmonton, Saskatoon, Winnipeg or Montreal. The forms are filled out by the farmer, in which he states the class of labor, nationality he wishes and the rate of wages he is prepared to pay. These forms are then forwarded to Europe and the farm help selected by a competent organization and the laborer is sent forward to the individual farmer. Farmers who require help would facilitate this work by writing applications at an early date so the proper class can be selected and ample time given to this work.

WIN Remember Wilson

A declaration that "the wage curers of America will forever cherish the memory of Woodrow Wilson" was adopted at a meeting at the American Federation of Labor of 100 trade union officials and representatives as well as of spokesmen for the Pan American Federation of Labor.

Grading Of Bacon

Time Not Appropriate to Set Up Grading Standards

Improvement of Canadian bacon stock, by selection in the Dominion, rather than by importation of animals from abroad and the securing of greater uniformity in exhibition judging, was advocated by the directors at the annual meeting of the Canadian Bacon Breeders' Association held in Toronto. J. E. Brothman, president, in his annual address, said that the past year had been unpropitious for swine breeders owing to poor marketing conditions in Europe, but there were indications that price would advance in the very near future.

The question of the Dominion Government establishing a standard for the grading of bacon was strongly defended by the delegates from Alberta and Saskatchewan. Action was deferred pending a report by the Federal Department of Agriculture. M. R. Arkell, livestock commissioner for Canada, stated that the department has been studying the question and had ascertained from the Old Country facts with respect to the sale of Canadian bacon overseas. He did not believe the time was opportune to attempt to introduce in Canada a double system for the grading of bacon.

Women! Dye Faded Things New Again

Dye or Not any More, Shabby Garments or Dignity

Diamond Dyes

Each 25-cent package of "Diamond Dye" contains directions so simple that any woman can dye or that any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

Cairo Egyptian Treasures

Pennsylvania Museum Revolves Shipload From Its Expedition

The steamer Crisfield docked recently at Philadelphia laden with eighty-five tons of ancient relics from Egypt and Palestine unearthed by expeditions of the University of Pennsylvania.

Some of the articles in the consignment weighed five tons each, notably the doorway and columns from the Palace of Pharaoh Menepthah, at Memphis, Egypt. A number of complete mummy coffins are part of the Egyptian collection.

From ruins in Palestine numerous historical monuments are in the consignment together with notable examples of sculpture of the period.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep its stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 35 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

From the hide of a single whale two hundred packs of heavy boots, over a score of shoes, several pairs of hating and shoe leese were made recently.

Quickly Relieves Constipation

Don't let constipation poison your blood and curtail your energy. If your liver and bowels don't work properly take

CARTER'S LITTLE LIVER PILLS. Little Liver Pills help and your trouble will be relieved. For children, take a quarter, for adults, take one. They are gentle, pleasant and healthy. Sold by all druggists. Small Pills—Small Dose—Small Price.

Movement Across Border

Expect Big Influx of U.S. Farmers in Spring

Handling of thousands of United States farmer settlers expected to move to Canadian prairie lands this spring was the principal subject discussed at a conference of land and colonization officials of the Canadian National Railways, from Winnipeg west to the Pacific coast.

Indications are, it was declared, that the movement across the border into Canada this year will be greater than it has been in some time.

If Tormented With Corns Use Good Old "Putnam's"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and brack, leaves the skin smooth as silk. No failure with "Putnam's," the everywhere.

One of the most expensive books in the world is in the possession of the Shah of Persia, a gift from the Amir of Afghanistan. It is a copy of the Koran, bound in solid gold and set with pearls, rubies and diamonds. It cost \$400,000.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Edison Felt Young

Declaring that he felt no older than 40, "though a little more awkward perhaps," Thomas A. Edison, the famous inventor, told members of the Edison Pioneer Association, veterans of his service, that he hoped to live until he was 100. Recently he celebrated his 78th birthday, and attended a dinner given by the association. "Work which one loves is the best form of amusement and diversion," Mr. Edison told his hosts.

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the depredations of worms.

The British Empire Exhibition

Canadian Pacific Railway Can Supply Full Information Re Booking Passages

The coming summer will see an unprecedented travel to the British Isles from the Overseas Dominions, for the British Empire Exhibition which opens in Wembley Park, April next, and those intending to make the trip should make early arrangements with the nearest agent of the Canadian Pacific Railway for their passages, in order to secure the desired accommodation.

The Canadian Pacific offer an excellent through service and will arrange every detail for train and steamer. A postal card or letter to any agent or to R. G. McNellie, General Passenger Agent, Winnipeg, today will bring full information by return mail.

Minced's Liniment for Rheumatism

On Half Salary

Former MacDonald has Declined to take a single salary of only \$5,000, although filling the dual offices of first lord of the treasury and foreign secretary, which carry a salary of \$5,000 each.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sprains, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Spectacle Styles

"Spectacle Styles for Women!" is the slogan of a new association formed, its object being the education of women to setting the spectacles to the spectacle. "Rubber-band glasses with an ornate setting!" they say. "Period the thought!"

Hobart News.

The Hobart U.F.A. held
a meeting Saturday night with
a full attendance.

Resolution was passed
that it be resolved that Hob-
art Local No. 280 go on
record by putting in a protest
against sending dues to dis-
trict office in accordance with
bylaw passed at the recent
convention.

One of the most important
discussions was the building
of a hall. One more of ground
has been obtained and a hall
will be built. A gravel
hauling will commence at
once and building as soon as
spring opens.

Beverington San Grand Truck

George B. Beverington is suing
the Grand Truck Ry. for
\$10,000 for damages and
\$250 for doctors and hospital
bills in connection with
the accident which occurred
at a railway crossing west of
Spruce Grove in February of
last year. The case was tried
before Chief Justice Harvey
and a jury. George's car was
run into by a coal-
hauling train. The accident
occurred at a dangerous place
for those crossing the tracks.
George himself was in the
hospital for a considerable
time after the accident, and
now claims he suffered per-
manent injury.

Mr. Beverington is the well-
known authority on Canadian
hauling laws.

Surprise Birthday Party

A very charming birthday
party was given on Friday
evening by their children at
the home of Mr. and Mrs. Val-
entine Kufak Senior. They
enjoyed themselves thoroughly.
Shortly after midnight a
delicious lunch was served.

To Grandfather and Grand-
mother—
As we strenuously plow
Thru the furrows of life
May we sow the sweet seeds
of content
That shall bring forth a har-
vest
Of bright, happy peace
Wherever our footsteps are
lent
And each in their turn
Take a hand at the plow
And scatter their share of the
grain
And a joyous reward
Will as surely be found
As the sunshine shall follow
the rain.

—A Grandchild.

Two for the Price of One.

Once more we are in a
position to offer our readers
two papers for the price of
one. A new subscriber or a
renewal for The Sun includes
a year's subscription to The
Canadian Power Farmer. The
Canadian Power Farmer is
much appreciated by farmers
who are receiving it, and we
feel sure they will be glad to
renew on such generous terms.

The Weekly Poem.

Mary is her sister's best
The very latest kind
Looks like a drain pipe in the front
And much the same behind.
We cannot change our nature,
It is quite beyond our reach
If a girl is born a fool
She cannot be a peach.

DISTRICT OF EDMONTON,
IN THE MATTER OF THE ESTATE
OF GEORGE DAVID WHITE,
DECEASED.
NOTICE IS HEREBY GIVEN that
all creditors of and all persons
having claims against the estate of
George David White, late of the
District of Golden, B.C., in the Pro-
vince of Alberta, formerly deceased,
who died on or about the 11th day of
June, 1934, are hereby required to
send by registered post prepaid or
deliver to F. W. Lundy, Solicitor,
Stony Plain, Alberta, the full and
correct list of the names of the credi-
tors of the estate of the said estate,
or before the 25th day of Feb-
ruary, 1935, last day of ad-
vertisement, the full particulars in writ-
ing of their claims and statements of
their accounts and the nature of the
debts or claims, together with duly
sworn statements of verification.
AND FURTHER TAKE NOTICE
that after the 25th day of Feb-
ruary, 1935, the executor will
not be bound to distribute the assets of the
estate thereof, having regard only
to the claims which they shall then
have notified and which will not be
liable for the said assets or any part
thereof as distributed to, any person
or persons of whose claims notice
shall not have been duly presented
by them at the time of said distribu-
tion.
DATED at Stony Plain, this 15th
day of February, 1935.
F. W. LUNDY,
Stony Plain, Alberta,
Solicitor for the Executors.
